I went away from you
Secret door
Opening the way to my heart
I'm coming home
This is what I said to my mind
A simple song
Dedicated to the ones I love
As a simple role
Played with ingenuity
I know, I know, I know I have
I've got to be so close
To you
I know I have
The right to be here but I...
Secrete door
Opening the way to your heart
I'm coming home
This is what you said to your mind
A simple song
Dedicated to the ones you love
As a simple role, yeah
Played with ingenuity
I know
I went away from you
