I believe in myself  
I believe in my skills  
All I have to do is to change my life  
Living it in a better way  
I can begin to dream again  
Everyday  
Cleaning out my past from my mind

Wanna be somebody, yeah  
Not living in the shade  
Beginning to smile again, yeah  
Now everything is alright  
Everything in my life  
Seems to be so fine  
And if you don't believe me, baby  
I don't care

I don't forget the eyes  
Of a man who cried  
For your stupid lies

I couldn't save my mind  
I never had that chance  
Here's nothing I can change  
I have to try again.
