don't think you may feel it
I don't believe you do
I don't want you to think you've got the right to rescue
The hideous side of me
Cos I know who I am
And you're about to discover
Something you too
Could not be holding all alone
Could not be standing it so long
Could not be telling anybody
How you feel inside your heart
And why you're wishing it to go
But why the hell you?
You don't think I may feel it
You don't believe I do
You don't want me to think I've got the right to rescue
The hideous side of you
Cos you know who you are
And I'm about to discover
Something me too
Could not be holding all alone
Could not be standing it so long
Could not be telling anybody
How I feel inside
Is anybody going really crazy?
Is there anything I could expect from this?
Feels like a prison I cannot escape from
Like a virus I get infected with
Is anybody going really crazy?
Is there anything I could expect from this?
Feels like a prison I cannot escape from
Like a virus I get infected with
Is anybody going really crazy?
Is there anything I could expect from this?
Feels like a prison I cannot escape from
Like a virus I get infected with
