"Sleep"

Plenty of emotions
Surrounding my way
Tons of frustrations
Covering my brain
I know nothing is as it seems
I know
I'm drowning in a sea...
I'm missing my oxygen
There's no oxygen here
I need help, you see...
Underwater I cannot breathe
Underwater I cannot speak
Underwater I can only sleep
Sleep, sleep
It is you're time
What is this? Now I can breathe again
What is this? Now I can see it
Because I open my eyes on time
Sleep, sleep
It is your time now
I know it's your time
Not mine...
