I wish I could push a button and make the pain all go
away
I wish I had the magic words but I don't know what to
say
I wish I could take the wasted years and throw them all
away

And it might sound easy for me to say
You are going to find a way to fix what's broken
Fix what's broken

You say you like people with fire, but you don't like it
when you get burned
Broke about a thousand hearts, now you don't like it
when it's your turn

You wonder when you're going to figure out all the
lessons that you need to learn
And it might sound simple for me to say you will learn
someday that
All you need is love

All those big dreams that were so important, they don't
mean anything now
All you need is love

All those hard times when people hurt you, they don't
mean anything now
All you need is love

Love is all you need to fix what's broken
Love is all you need to fix what's broken

You turn sunshine into chaos everywhere you go
Now your girl has got a brand new life with a guy you
used to know
She got tired of the drama you make when life gets too
slow

And it might sound simple for me to say you will heal
someday now

All you need is love

All those big dreams that were so important, they don't
mean anything now
All you need is love

All those hard times when people turned on you, they
don't mean anything now
All you need is love

All those happy endings that never happened, they
don't mean anything now
All you need is love

Love is all you need to fix what's broken
Love is all you need to fix what's broken
Love is all you need
Now, enough is enough
Enough is enough

The time is going to come when you stop feeling sorry
for yourself
Yeah, you were broken when you were young and you
never got over it
You were damaged when you were young, and now
you take it out on everyone

The time is going to come when you say that enough is
enough
The time is going to come when you stop beating
yourself up
Stop beating yourself up
Stop beating yourself up

The time is going to come when you see that all you
need is love
All you need is love
All you need is lov, love, love, love, love, love
The time is going to come when you see
All you need is love
All you need is love
Love is all you need to fix what's broken
Love is all you need to fix what's broken
