I hate waking up it means that I have to die again
tonight
35 years old and I'm still sleeping outside
Yeah I think I know your face I don't wanna to know your
name
I won't give in I'm not like that
I won't give in
You say it's Christmas Eve that don't mean nothing to
me
Just another fucked up day just another waste of time
You wonder why I live like this man you just won't
understand
I won't give in I'm not like that
Yeah, I won't give in
You smart ass college fuck
Act like you think you're tough
I was just like you
More pride than you could know
Think you pity me
I'll kick your ass if you pity me
I won't give in I'm not like that
No, I won't give in to you
Just go away
You college boy act like you think you're tall
I won't give in I'm not like that
No, I won't give in
