You know i want to be  
The way you want me to  
Big hearted and tall enough to cover you

I would break in half  
If you said it loud splinter out of myself  
Just like mercury

I think it's better now,  
Than how it used to be  
You were lying in bed and i would levitate

I think it's better here,  
Than where we used to be  
I wish i could go out into the oregon sun. . .  
To be alive in the day. . .  
I would smile at everyone

I remember you  
Back in '83  
You were dressing insane  
You were my everything

You were so different  
From all those other girls  
A blind electra in drag  
So cool and casually lame

I think i'm better now  
Than how i used to be  
Always nervous and weird  
Scared most of the time

I think it's better now  
Than how it used to be  
Always up in the night  
Afraid to live in the day  
Afraid of being afraid

Afraid to live in the day  
Afraid of being afraid

I sit alone  
When your not around  
I read aloud just to hear a friendly noise

I see your scary dolls  
They always look at me  
From the corner of my eyes  
I see them shake their heads

You know i want to be  
The way you want me to  
Big hearted and tall enough to cover you

I want to be  
The way you want me to  
I wish i could go out just to be alive in the day

To be alive in the day  
To be alive in the day  
To be alive in the day
