Hello everyone, just wanted to let you know that Everclear has a new moderator, I am going to be making a lot of changes including fixing all songs that are not everclear and adding lots of songs not listed here yet. If I make any mistakes, which I probably will, feel free to PM me and correct me. If I am wrong a correct source of where you got the lyric from, such as an album sleeve would be useless. Also, I am the new moderator for colorfinger and if you don't know who they are you might wanna check them out. I look forward to making the Everclear section a whole lot better for EC fans.
