Ever Stays Red
"Save Today"

Visit "Save Today" on MotoLyrics.com

Our lives pass by
If only one day at a time
So don't you be too afraid to try
Some people say
"It's best if we take it slow"
But I think they're too afraid

(Chorus)
Today will fade away
Just as soon as the sun takes its place
So save today
Don't you waste away
For tomorrow will soon be today
Save today

Don't wait for them
For their lives are all but spent
So you learn to live above the rest
All lights shine green

So be who you want to be
And I'll let You show me how

(Chorus)

Should you really ever feel
Like your life is too far gone
Just try again
'Cause we only ever get
But one chance to live this life
So let's begin

(Chorus)

Save today
(Repeats)
