The only thing that ever made sense to me  
Is the words to a song from an American movie  
The only thing that ever made sense in my life  
Is the sound of my little girl laughing  
Through a window on a summer night

I sit alone in the backyard  
Wishing I could be alive  
Just the sound of my little girl laughing  
Makes me happy just to be alive

Makes me happy just to be alive

Makes me happy just to be alive  
Makes me happy just to be alive

Makes me happy just to be alive
