Here he comes, here comes speedracer  
He's a demon on wheels  
He's a demon and he's gonna be chasing after  
someone  
He's gaining on you so you better look alive  
He's busy revving up the powerful mach-5  
And when the odds are against him and there's  
dangerous work  
You can bet your life speedracer will see it through

Go speedracer  
Go speedracer  
Go speedracer, go

He's off and flying as he guns his car around the track  
He's jamming down the pedal like he's never coming  
back  
Adventure's waiting just ahead!
