Walking wounded  
With a belly  
Full of pain  
And a big bad attitude  
Yeah

We are shaking shadows  
For that perfect dark room  
Where we can do just what we  
Wanna do

There is a place  
Where we can leave behind  
All those simple minds  
They would not like the way we live

When we are all alone  
In this house that we call home  
You will become my misery whip  
Yes I said like a misery whip

Walking hungry with a pocket  
Full of promise  
And a big black song  
In my head

Yes, I know the answers to  
My questions  
They are purple black and blue  
And they are waiting for me in my bed

There is a place  
Where we can leave behind  
All those simple minds  
They would not like they way we live

When we are all alone  
In this house that we call home  
You will become my misery whip  
I will say it again like a misery whip

Stop

I get no pleasure  
When I'm going through  
The motions  
Of my mediocre day to day

Well, I'm just an actor  
Just like Robert fucking Redford  
When I say those stupid words  
That they expect me to say

Yes we can leave behind  
All those simple minds  
They would not like the dirty  
Things we do  
Yeah

When we are all alone  
In this house that we  
Call home  
I will fall down like a bitch for you

I need you to hit me and  
Make me shake  
I need you to hurt me and  
Make me beg for more

I need you to bend me and  
Make me break  
I need you to make me  
Feel like I am your whore

I feel complete when  
I feel sick inside  
I feel complete when  
I feel sick inside

I feel complete when  
I feel sick inside  
I feel complete when  
I feel sick inside

I need to feel like  
I am real inside, yeah  
I need to feel like  
I am really alive

I need you to make me feel  
I need you to make me feel  
I need you to make me feel  
I need you to make me feel

I need you to make me feel  
I need you to make me feel  
I need you to make me feel

I need you to hit me and  
Make me shake  
I need you to hurt me and  
Make me beg for more

I need you to bend me and  
Make me break  
I need you to make me feel

Like we can leave behind  
For all those simple minds  
They would not like  
The way we live

When we are all alone  
In this house that we call home  
You will become my misery whip  
You will become my misery whip

You will become my misery whip  
You will become my misery whip  
You will become my misery whip
