One, two, three  
Two, two, three

You know I love you baby  
And I know you love me too  
But the fun that day  
Didn't start until  
We left on our honeymoon

Stepped off the plane into a warm sunny day  
Then we got leid together  
The sun shines down on a lonely town  
Where the fish all smile 'cause they know us

Our wedding day was warm and sunny  
Our friends and family came from out of town  
We said I do, then ate some food  
And smiled 'til the sun went down  
We'll take the zodiac, the Cadillac  
Around the north shore and then we'll head back  
The sea turtles come to greet us

So let's get loaded tonight  
We'll drink on the flight  
Back home, the honeymoon is over

You know I love you baby  
And I know you love me too  
But the fun that day  
Didn't start until  
We left on our honeymoon

We're on our honeymoon  
We're on our honeymoon  
The fun that day  
Didn't start until  
We left on our honeymoon
