The brain is the seat of madness and delirium.
?Porque has pecado co ese cuchillo en tus manos?
?Porque deberia yo perdonarte la crueldad de tus acciones?
Ahora, cierra tus ojos... (can you feel it?)
?Que sientes? ?Que respiras?
?Abandonas todas las restricciones?
?Que est lo que ves? ?A donde vas? (dejame entrar).
Abrazas la luz. Noche tras noche. Me Soportabas (it was you)
Cada vez que tropezaba.
Compadecia incluso la vida... la vida solo es un sueno.
Esta vida es nada. Lo abrazas (can you feel the light?)
?Lo puedes sentir?
[English Version]
What made you sin with that knife in your hands?
what makes me forgive all the cruelty of your deeds?
Now close your eyes, can you feel it?
What do you feel? What do you breathe?
Do you abandon all restraint? What do you see?
Where do you go? (let me in).
You embrace the light.
Night after night. You took me under.
Every time i stumbled i did even pity life itself...
This life is nothing but a dream.
This life is nothing. Can you feel the light? Can you feel it?
