Here we are my friends once again I'm inclined to
rhyme on time so why

won't you let me in? It's clear to this hair has no pin if
this song

was the blues you'd be sheddin' the tear like a baby
maybe I should

have held back some of you attract I guess you
couldn't tell that I

was here to drop knowledge college is erellivant. My
next move to

prove what's smooth is still intelligant expressin'
lesson's with

sheer decision, first hear me out then make a decision
on wether

Everlast knows what time it is. Does this song belong in
rhyme biz?

Yes, I think so 'cause I'm a pioneer blazin' the trail I
cross a new

frontier I grow the Lincoln growing strength as I get
older, 'cause

I'm the Syndicate Soldier! All effections left behind,
there's still

two more gears to grind, before I'm through I'm sure
that you'll find

a new respect fot the rhymes I injent through your
eardrumb don't play

dumb just let me get you. The pojnt of my address to
let you get your

can o' corn. This song is on the table to make you
dance so get up and

if you don't leave the premasis I'm lookin' cool so you
can call me a

Genesis, born to preform and please a large crowd of
people at night

and till the light get ill out my scale is brotha known for
being

trecherous a sucker made a move and that means he
was forced to put

his head out, he got too close to me two by my side,
that's the way

it's supposed to be. These are my brothers and they
been 'round me

since back in the day these are the people who get
credit. As my name

gain credit they make sure it don't go to my head
instead I keep my

feet down unlike suckers from the past I beat down the
fatal mistake

with the brake of my confidence over all the fall was do
to over

confidence as we go the ego starts acting with the
statements of

greatness, the lines are backing up, talking louder as
they get bolder

but there no defense against a Syndicate Soldia. As I
reach the final

stage something I'll engage in a conflict sick with
violent rage I gain

fame from my name Everlast how long can this hype
about a Devil last,

it started as fun but everyone took it serious now it
seems like I'm

delerious thats ok I'll stay underated. And good things
will comke to

all that have waited, to the brother of a lighter skin to
begin to

drop knowledge with weight 'cause you weigh paper
thin, science is one

thing knowledge is another what do i mean when i say
I'm a brother

being a brother is a state of mind for all those who try
to remain

unblind I gow in wisdom as I get older that's right I'm
white and I'm

a Syndicate Soldier
