All my money's spent  
All my prayers been said  
Walking up that hill  
Legs are nearly dead  
It won't be long at all  
Heartbeats tick away  
Feel it in my bones  
Will I see the day,  
Pay off all these loans?  
It won't be long at all  
It won't be long at all  
Long and winding roads  
I walked 'em all in vain  
When that trumpet blows  
Hope they call my name  
Won't be long at all  
Put your rifles down  
Abandon all your arms  
Sing your prayers out loud  
The Gospel's in your song  
Cuz it won't be long at all  
No it won't be long at all  
It won't be long at all  
Stop your warring ways  
Only kill your?  
Pollute your seasoned skies  
Kindness to your mom  
It won't be long at all  
It won't be long at all  
Teach your children well  
Beg them to be kind  
Cuz they'll be running shit  
When you're old, deaf, dumb, and blind.  
And it won't be long at all  
No, it won't be long at all  
It won't be long at all  
It won't be long at all
