[Everlast]

Oh this tastes like shit  
Oh, that's awful

[Xzibit]

Whitey Ford takes the flows, y'all  
See I'm about to have the time of my life, Bacardi on  
ice  
Live from Los Angeles, it's Saturday night  
While others staty tight we're looking for some parties  
to crash  
I never bounce, rock and splash without my Alkaholik  
stash  
I scooped the homie Tash, introduce me to Everlast  
He know where the bitches move fast so we can have a  
blast

[Everlast] (Xzibit)

I think you know my man Sadat from the Nubian crew  
And I can see you're rolling tight with the Likwit too,  
yeah  
I make room for every crew whose beats be booming  
I know you puffing some weed but are you down with  
some shrooming  
(Shrooming, hell nah, that's what the white boys be  
doing)  
I got room in the jeep, we can mash a few down  
Eat a few bags of shit and we could mash up a town  
See I know this spot where them things will be hot  
We guarantee at least two chickens up in every pot  
So whatcha want (whatcha got), ay yo, eat some of  
these  
And thrust us all up, you'll be cool like a breeze

[Xzibit] (Everlast)

Brought me back some orange juice, two vitamin C's  
And the look on my face look like a painful disease  
They tasted awful but by that time I had a jawful  
(Just chill, ten minutes and it's all downhill)  
Downhill, how does it feel, how long does it take to  
work  
Am I gonna fry my disk, does it make my stomach hurt

Captain Kirk pulled into the night club parking lot  
The line was around the block, hurry up and find a spot  
Straight to the bar drinking hennessey and orange  
juice  
I gotta be trippin', that bitch just melted through the  
floor

[Everlast] (Xzibit)

Yo, either I'm high or I think that I'm dreaming  
Don't take this shot wrong, but X you look like a demon  
(what)  
And I might start screamaing, I think I might puke (yeah)  
Cause I just heard a voice saying use the voice Luke,  
what the fuck

[Xzibit]

Brothers and sisters walking by that I recognize  
Feeling hypnotized, Peoples Dilated changing sides  
To my surprise we didn't even have to scrap tonight  
Higher than kites, staring at lights, this a other type of  
high

[Everlast]

My mouth was dry, I forgot how to breathe  
And I just saw some shit that you wouldn't believe  
With this bomb, baby palm, ain't no tricks up my sleeve  
Let me slide up in this mix, get some chicks and we'll  
leave

[Xzibit]

We be stumblin' straight from the bar, straight to the  
car  
Feeling like my feet getting stuck to the street  
Went to my house smokin' trees, playing video games  
Everlast, a couple of homies, a couple of days

[Everlast]

It was me, X and Tash, we was smokin' a J  
With this girl named Michelle, and her friend Chantay  
Pumpin' Straight Outta Compton by N-W-A  
Am I talking out loud or just thinkin' this way

[Xzibit]

Damn I can't find my keys, chickens ready to leave  
They're ready to bounce, yo I think we smoked the  
whole ounce  
I'm roaming the house, finding my words hard to  
pronounce  
Talking to myself, see Mariah Gage on the shelf  
For everything stays deep, I shoulda known all the  
cases

Twenty-five lightnings is what Xzibit is facin'  
If somebody catch a slug at my house  
That's the last time I ever put some stupid ass drugs in  
my mouth  
Pulled a fifty, unloaded the gage, at least I thought so  
Except I kept one in the chamber for Vinnie ?  
That's what I forgot, that's what I lost  
When I pointed the barrel at the floor and the gauge  
went off
