A dozen roses arrive  
What a perfect surprise  
You greet me with a kiss  
I could get used to this

You think that I look the best  
When my hair is a mess  
I can't believe you exist  
I could get used to this

Because you know you're too good to be true  
I must have done something good to meet you

'Cause you wrote my name all across your hand  
When I freak you understand  
There is not a thing you miss  
And I could get used to this

I'm feeling it coming over me  
With you it all comes naturally  
I've lost the reflex to resist  
And I could get used to this

You love the songs I write  
You like the movies I like  
There must be some kind of twist  
I could get used to this

Because you listen to me when I'm depressed, oh  
It doesn't seem to make you like me less

'Cause you wrote my name all across your hand  
When I freak you understand  
There is not a thing you miss  
And I could get used to this

I'm feeling it coming over me  
With you it all comes naturally  
I've lost the reflex to resist  
And I could get used to this

If there's a dark side to you I haven't seen it

Every good thing you do feels like you mean it

You wrote my name all across your hand  
When I freak you understand  
There is not a thing you miss  
And I could get used to this

Feeling it coming over me  
With you it all comes naturally  
I've lost the reflex to resist  
And I could get used to this

'Cause you wrote my name all across your hand  
When I freak you understand  
There is not a thing you miss  
And I could get used to this

I'm feeling it coming over me  
With you it all comes naturally  
I've lost the reflex to resist  
And I could get used to this  
I could get used to this, oh yeah  
Yeah, oh oh I could get used to this
