

Everlife "Lead The Way"

Visit "[Lead The Way](#)" on MotoLyrics.com

Where is the help, where is the light
I'm crawling in a haze
I'm making a vow I'm taking a stand
I'm starting to change my ways

Well I need to know when its time to go
Oh to a place to be with you

I'm about to walk, I'm about to run
I'm about to lose, lose my way
I can hardly talk, I can barely see
I'm counting on you to lead the way, you lead the way

Somebody said watchin', give it for me
I find it hard to believe
If I'm hearing you right, I'm gonna give up the fight
And let you have all of me

Well I need to know when its time to go
Oh to a place to be with you

I'm about to walk, I'm about to run
I'm about to lose, lose my way
I can hardly talk, I can barely see
I'm counting on you to lead the way, you lead the way

Be my eyes oh, be my thoughts
Be my everything, everything, yeah, yeah
It's my choice, it's my choice

I'm about to walk, I'm about to run
I'm about to lose, lose my way
I can hardly talk, I can barely see
I'm counting on you to lead the way, you lead the way

Oh oh yeah, you lead the way
I can hardly talk I can barely see
I'm counting on you to lead the way, you lead the way
