[Verse 1]

The Room is dark
And my hands are folded
Across my heart
And I pray to god
That you're thinking of me too

[Chorus]

There's a beating in my chest
A scream inside my head
That says
'I love you'

There's a beating in my chest
A scream inside my head
That says
'I love you'

[Verse 2]

From the perfect fold of your fingers
I know you're the only one I can need
You said we'd be best friends until the end
Oh what would you do if you knew?

[Chorus]

There's a beating in my chest
A scream inside my head
That says
'I love you'

There's a beating in my chest
A scream inside my head
That says
'I love you'

[Verse 3]

From all the words
That you never spoke to me
And I'm always left imagining
You and me
(You and me)

There's a beating
And a scream inside my head

[Chorus]
There's a beating in my chest
A scream inside my head
That says
'I love you'

There's a beating in my chest
A scream inside my head
That says
'I love you'
