Hold me
A little bit closer
Tell me where you wanna be
Where you wanna be

We can write
A story in the sunrise
We can tell the legions of the sea
Legions of the sea

We'll tell them
The story goes that you and I will make it
The story goes that nothing will break this
The story goes that forever's in our hearts

When everything is lovely
When everything is fine
It's the right time
To hold on to you

When everything is broken
When everything's all wrong
It's the right time
To hold on to you
It's always the right time
To hold on to you

Whisper your name in the moonlight
Display the portrait of who you are
(Portrait of who you are)
Capture the dreams
Of our future
Command the heavens
To follow through
The heavens
To follow through

Tell them
The story goes that you and I will make it
The story goes that nothing will break this
The story goes that forever's in our hearts

When everything is lovely
When everything is fine
It's the right time
To hold on to you

When everything is broken
When everything's all wrong
It's the right time
To hold on to you
It's always the right time
To hold on to you

We never have to wonder
Where we went wrong
We're making our own way
Well none of this will crumble
If we keep believing
(Believing)

When everything is lovely
When everything is fine
It's the right time
To hold on to you

When everything is broken
When everything's all wrong
It's the right time
To hold on to you

It's always the right time
To hold onto you
