"You Only, Most Holy"

What if in this moment we forgot where we were from
Who we wished we could be and everything we have
done

And all we saw was You
Standing in Your glory
I wonder what we'd do
If all we saw was You

You only, most holy father I am bowing down
You only, most holy father I am bowing down
I'm surrounded by Your love

I'm surrounded by Your love
I will pursue only You

What if silence covered all the noisiness outside
And we stopped to listen to the truth we try to hide
And all we heard was You
Whispering Your love songs
Oh how we'd be moved
If all we heard was You
