Under the brakes
all that it takes
pulling us down
driving us foward
under the breaks
under the road
metal and wheels
screaming the sound
oh, under the brakes
wheels to the road
under the road
it carries a load

if you want it so bad, you can always play the fool
and be her fool
and if you want it so bad, you can always play the fool
and be her fool

under the brakes
waiting to take
waiting to drive
driving me down
under the breaks
wondering why...
wondering why...
wondering why i'm here.
