(feat. Trey Songz)

[Chorus]

This is the last time, I know I'm about to drive you crazy
Last time but I gotta see my baby
I know I swore that I'd never break your heart no more
(try to walk)
But I just can't leave her alone girl
She keep calling me calling me
Try to leave her alone but she keep calling me calling
me and I gotta go

[Verse 1:]

Damn here we go again
I just came back girl dont make me go again
She said you been in the streets
You was with that hoe again
Money wrapped in rubber bands watcha selling blowing
again
How she got you on the run
But you call that hoe your friend
You weren't supposed to bring her home
What you do you show her in
I was like show her in? never that oh no anybody in the
streets know thats a no no
So no I would never ever, ever, ever
Baby I'm a g yeah thats right the seventh letter
See one thing about the streets where I know the heffa
at
And I bet she always be exactly where I left her at
But you know we had a bond no ring no paper
And I dont hear that shit when I bring home paper
My ears to the streets wat you know you tell us
You keep talking down girl you sound like you're
jealous.

[Trey Songz]

This is the last time I know I'm about to drive you crazy
Last time but I gotta see my baby
I know I swore that I'd never break your heart no more
(try to walk)

But I just can't leave her alone girl
She keep calling me calling me
Try to leave her alone but she keep calling me calling
me and I gotta go

[Verse 2:]

Hi honey I'm home
She looked at me and said its 5 something in the morn'
You smell like you been drinking the vibe from you is
strong
I said baby thats cologne she said nigga thats patrone
If you wanna keep with the bad habits thats fine
You think I'm with it then you out your rabbit ass mind
They say tricks are for kids
Most chicks would of said
But who ain't missed a visit through the six that you did
I be damned if I do another six with's some kids
Who only see their daddy in them flicks on the fridge
Them niggas that you think are in the mix with the shit
They the same reason michael vix doing biz
Say hold up I met you while I was thuggin back then
You was riding with me holding a mac10
But that was back then
You ain't give a what
Now you standing here telling me to give a hug

[Trey Songz]

This is the last time I know I'm about to drive you crazy
Last time but I gotta see my baby
I know I swore that I'd never break your heart no more
(try to walk)
But I just can't leave her alone girl
She keep calling me calling me
Try to leave her alone but she keep calling me calling
me and I gotta go

[Verse 3:]

Hold on baby please you can't leave now
No joke baby please
I'm gon' get you to a hospital, as quickly as possible
Life is full of obstacles, we gon' get you through this
one
You looked me in my eye (eye)
When you told me it was done
I played her for a fool but I guess I was the foolish one
Remember when she told me how that she was as hot
as a dream
Late night phone calls from one of my close friends
Telling you that we are rushing to the E.R.
About this time tomorrow we were supposed to be in
D.R

Me blowing a cigar, you sippin' a tini
I told her pack her bags and dont forget a bikini
And just like hoobini it all disappeared
Skipped to paradise didn't end like this I swear
Sorry baby girl I tried the best I could
But if I can't be in the streets I guess heaven's just as
good

This is the last time I know I'm about to drive you crazy
Last time but I gotta see my baby
I know I swore that I'd never break your heart no more
(try to walk)
But I just can't leave room girl
She keep calling me calling me
Try to leave room (ooh)
But she keep calling me calling me and I gotta go
Ooh ooh ooh ooh
Say I gotta go ooooh
She keep calling me calling me
Ooooh ooh ooh ooh
