This unavoidable thing between us

Between us I fell this undeniable thing
Between us so real this unavoidable thing
Between us I see this undefinable thing, between us.

Everytime you say the words it's real
and every time you say the words, i feel

The night is long today, my love for you has changed
The night is long today, a hope has been replace
All the steps we take, the ones that lead away, a little

When we walk away, we only grow more near
When we turn away, it all becomes so clear
This unavoidable thing, joining us

A little too late, A little too soon, a little
to give a little, to take a little, to lose a little,
to find a little, to die a little, to live a little

and it wont be long....
'cause its falling down and i'll take you there....
