Between us I feel this undeniable thing
Between us so real this unavoidable thing
Between us I see this undefinable thing, between us

Everytime you say the words it's real
And everytime you say the words, I feel

The night is long today, my love for you has changed
The night is long today, a hope has been replaced
All the steps we take, the ones that lead away, a little

When we walk away, we only grow more near
When we turn away, it all becomes so clear
This unavoidable thing, joining us

Everytime you say the words it's real

And everytime you say the words, I feel

The night is long today, my love for you has changed
The night is long today, a hope has been replaced
All the steps we take, the ones that lead away, a little

A little too late, a little too soon, a little
To give a little, to take a little, to lose a little
To find a little, to die a little, to live a little

And it won't be long... [x6]
'Cause it's falling down, and I'll take you there...
