New York symphony, out across the sea
As I smile and think of you
Crowded city streets, rushing over me
In every face a glimpse of you

So walk with me, into something new
The valley of peace comes into view
We all need a friend to carry us through
You found it in me, I found it in you

We will meet again, down the road my friend
Round the river's bend, this is not the end, the end
When we're face to face, when the time arrives
There will be no chains, only open sky
And we'll fly

A long forgotten scene, a space between my dreams
One day soon we will be home
So much you mean to me, I hear the oceans breathe
Heartbeat skipping like a stone

So walk with me, into something new
The valley of peace comes into view
We all need a friend to carry us through
You found it in me, I found it in you

We will meet again, down the road my friend
Round the river's bend, this is not the end, the end
When we're face to face, when the time arrives
There will be no chains, only open sky
And we'll fly
We'll fly, we'll fly, we'll fly
We'll fly, we'll fly, we'll fly

We'll fly, we'll fly, we'll fly
We'll fly, we'll fly, we'll fly
