Chorus:

Who can stop Jah vibes from flow
Tell them to try and stop it now (can't stop Jah vibes)
Who can stop Jah vibes from flow
Tell them to try and stop it now (can't stop Jah vibes)
Who can stop Jah thunder from rolling
The lightning that flashes
The breeze that blowing
The fishes in the sea
And the things that keep moving
It's the nature of Jah you see
And his wonderful works is no mystery

Chorus

Look at the night when the land is dark
Jah Jah moonlight shines so bright, yeah
Look at the day you see the sunlight
People wash their clothes and hang them to dry, yeah
And in the garden there's so many flowers
Giving nice sweet incense from different colors, yes
(red, gold and green)
And everything you see around you
It is a proof to show his truth, yeah

Chorus

Who can stop Jah thunder from rolling
The lightning that flashes
The breeze that blowing
The fishes in the sea
And the things that keep moving
It's the nature of Jah you see
And he answered my prayer is no mystery

Chorus

I tell them to try and stop it now
Tell them to try and stop it now
None of the can stop it now
None of the can stop it now
They can't stop it now
They can't stop it
They can't stop it
Can't stop it
