People listen, listen to my song, people listen

Verse 1:

Keep listening to my song

I sing good music for you all day long

So when you are going your normal way

I lyrics keep you from going astray

Babylon want us to go down

No elevation, they can't stop our sound

So long

We've been down in the hole for so long

Babylon don't want us to come out

Rastafari going to take us over

So long

We've been down in the hole for so long

Babylon don't want us to prolong

Rastafari going to take us over

They are trying to stop our voice

But they can't contain our vibes

If they could control the falling rain

Only the poor would have complain

If they could control the breath of life

Only the healthen would survive

We done visualize the big man's plain

Caused him frustration and corruption

But for how long

So long

We've been down in the hole for so long

They don't want us to prolong

Babylon bound to get them downfall

So long

We've been down in the hole for so long

Babylon don't want us to come out

Rastafari going to take us over

Take us over, take us over

Take us over, take us over, hey

You inject hate in the youth them blood

You give them guns and you give them jobs

You teach them anger instead of love

Asking them to hate and build up grudge

It's not for days, it's for centuries

Lock us up in jail and penitentiaries

So long
We've been down in the hole for so long
They don't want us to prolong
Babylon don't want us to come over
We've been down in the hole for so long
Babylon going to meet their downfall
Rastafari going to take us over
Verse 1
Chorus out
