Can't suppose you feel the same
Dying just to know your name
Could you be just anyone
Could we be just having fun

Tell me what I'd love to hear
Every second that I feel
Is this really happening?
Yeah, it's really happening

Lights are low
My fingers in your hair
Your ice cold hands
You take me there

Where do we go from here
Is it all the way down
All the way
Is it all the way
[x2]
Down

Close the door and hit the switch
Every chance we get, we miss
You're making this nervousness
Let's just get this over with

Sleeping in the arms of love
Is she hopeful is she lost
Could she be just anyone
Could she be just anyone

Lights turned low
My fingers in your hair

Your ice cold hands
You take me there

Where do we go from here
Is it all the way down?
All the way
Is it all the way

[x2]
Down

Can't suppose you feel the same
And I'm dying just to know
I'm play pretending
Just get this over with

So can't you see I'm dreaming
It's too good to be true
And I can't believe I'm right here
Right here next to you
[x2]

Sleeping in the arms of love
Is she hopeful is she lost
Could she be just anyone
Could she be just anyone

Lights are low
My fingers in your hair
Your ice cold hands
You take me there

Where do we go from here
Is it all the way down?
All the way
Is it all the way
[x2]
Down
