Take your friends and move them out
We are the chase-ups of the night
Losers-bite it
But we don't go down without a fight

Ugly trends and pick-up lines
Have shattered it's own pride
Hopes and dreams and memories
Have stopped to say good-byes

One more song we can sing along to
Our big break
No more mistakes
One more time, we'll do what we have to
To get this off the ground

One more song we can sing along to
Our big break
No more mistakes
One more time, we'll do what we have to
To get this off the ground

No more should've-been, no more could've-been
There's no last thing now

Carve into the drawing board, just to wash it clean
They big talk but they will never say what they mean

Crowded floors and sleepless nights,
Photographs and stupid fights
Hopes and dreams and memories
You can't take away from me

Oh, oh oh oh, yeah

One more song we can sing along to
Our big break

No more mistakes
One more time, we'll do what we have to
To get this off the ground

One more song we can sing along to
Our big break
No more mistakes
One more time, we'll do what we have to
To get this off the ground

No more should've-been, no more could've-been
There's no last week
No more should've-been, no more could've-been
There's no last thing now

Whoa, yeah
Whoa, yeah

We only get one chance at this
In this life it's hit or miss
My hopes and dreams and memories
You can't take away from me

One more song we can sing along to
Our big break
No more mistakes
One more time, we'll do what we have to
To get this off the ground

One more song we can sing along to
Our big break
No more mistakes
One more time, we'll do what we have to
To get this off the ground

No more should've-been, no more could've-been
There's no last week now
