Walking through  
no one will see us  
our coats and shrouds  
someone will notice  
call him  
have him  
meet us out front  
the car is coming  
getting away with murder  
away with murder  
sound the alarm  
sirens are coming  
sound the alarm  
well I don't think  
we are done  
he moved too quickly  
for my tastes  
what happened?  
what happened to his face?

wait what will it take?  
what happened to him?  
what about family?  
i wanted you to see  
the man that I could be  
with opportunity  
the desperate man I am  
is all because of you  
and because of our family  
it's all because of you  
it's all because of you  
tell them  
that I am  
sorry  
they will watch you  
suffer  
they can  
get by
