Reach out, right in front of you
Sit tight, you're alright
Just breathe, the relief
Don't fear, I'm right here, I'm right here, I'm right here
I'm right; here I am to try to understand
The nail put through your hand

I need you, simply to see me
As easy to read what you need
Through me, so use me, seduce me
I'm right here, I'm right, here we plan to try to
understand
The nail put through your hand

Know you, be who you have to feel free to teach me
Reach out without doubt
Crash land, I know you can
I'm right here, I'm right here, I'm right here, I'm right
here
You can to try to understand
The nail put through your hand
