Despite what you think, I can offer you nothing.
I'm seasick and strung out and tired of adjusting.
Hands on the dashboard where I can see them.
Hands on the dashboard where I can see them.
Let me think. Let me think.
I'm all backed up. Just let me think.
If you would be my bride, the smoke and mirrors of
blissful lives will throw the hounds off the scent.
Learn the lines. Learn the lines. Learn the lines.
It's all I'm asking.
We steal what we need and the rest we call love.
Steal what we need and the rest we call love.
Take back the night.
Drag the captors and run for your life.
It's not what it seems.
Stockholm syndrome's just excessive grief.
If you leave me, I'm coming with you. I promise you
that.
If you leave me, I'm coming with you. I promise you
that.
Get out while you're still God's child.
We are deer in the headlights.
Motionless 'til we're ripped to shreds.
Stop following me around. Stop following me around.
Learn to lie. Learn to lie. Learn to lie. Learn to lie.
That's all I'm asking.
We steal what we need and the rest we call love.
Steal what we need and the rest we call love.
Take back the night.
Drag the captors and run for your life.
It's not what it seems.
Stockholm syndrome's just excessive grief.
If you leave me, I'm coming with you. I promise you
that.
If you leave me, I'm coming with you. I promise you
that.
Get out while you're still God's child.
Hands on the dashboard where I can see them.
Hands on the dashboard where I can see them.
Don't look up.
The cheap thrill of our impending doom's all I have.
The cheap thrill of our impending doom's all I have.

The cheap thrill of our impending doom's all I have.
The cheap thrill of our impending doom's all I have.
