I am a very important person.
I've acquired a genetically altered handshake capable
of speeds up to 30 mph.
Hair arranged by the most advanced landscape
surveillance operators our
Company can afford.
I have a very expensive pen.
I use big words quite often in substitution for
semantically equivalent words.
I attribute this success to my professional demeanor
and my strong stock
Portfolio.
Though it may not appear so, i am quite comfortable in
my surroundings.
I have everything, let me show you around.
Smile you fucker, it's not often you get this chance.
Love is just an exchange of corporate documents.
I've reviewed your rapport and i feel you're a prospect
for mechanical
Salvation.
This is a joint venture that will be mutually
advantageous to both parties
Involved.
Technically this is just a business merger.
A consolidation of liquid assets.
We are respectively geared towards customer service.
There is a great possibility for corporate sponsorship if
you're willing,
I am sure we could synchronize agendas.
Swift, and efficient satisfaction.
Through innovative planning,
We could form a strong strategic partnership capable
of overcoming sensitive
And adverse predicaments which will be discussed at
the next goals assessment
Meeting.
Promotion possibility and additional benefits are
diagrammed in my
Preliminary objective outline.
Raises are granted based on performance.
