We're gonna take this war  
For all the lost and giving up  
We're gonna fight ourselves  
Until what we do is giving love

I heard they place their faith  
Somewhere up in the clouds above  
What's right and wrong  
When the good old devil is giving love?

Are you free from your innocence  
Rise above what you've been told  
And don't you ever be the helpless child  
Trying to take your world, your world is giving love

If you don't have the power  
Don't let it mess with your head  
They use to burn the books  
But we still know just what they said

Are you free from your innocence  
Rise above what you've been told  
And don't you ever be the helpless child  
Trying to take your world, your world is giving love
