Just want to kiss you once more  
Thought you'd hear me through the door  
Oh my love in your tracks  
Little spider on your back

Never knew you'd fly so high  
Saw you almost touch the sky  
Hate to say it made me laugh  
Little spider on your back

Climbing up on these eight feet  
Wanting you oh so sweet  
Up and down the playful tease  
A spider can't say what he means

Just want to kiss you once more  
Thought you'd hear me through the door  
Oh my love in your tracks  
Little spider on your back

Little spider on your back  
Little spider on your back
