Pack your bags boy you're going to war!

The Country is set on Chaos
And anger fills the air
Our not so mighty president has a war to declare
Accusations are wild
But the country doesn't care
They live on greed and thrive for power
But real reasons just aren't there

(Chorus)

Get ready for war boy
Your country needs you now
Get ready for war boy
It doesn't matter how
Your life is theirs now
Don't you run
So get ready and arm your gun
Get ready for war boy
You have no say in this
Get ready for war boy
Your freedom no longer exist

Your a number to this country
Another mindless whore of war
Disposable to them
As long as they decor
Lies of Honor told for serving in their fight
Stealing from other countries as though it were their
right

(Chorus)

Get ready for war boy
Your country needs you now
Get ready for war boy
It doesn't matter how
Your life is theirs now
Don't you run
So get ready and arm your gun
Get ready for war boy
You have no say in this

Get ready for war boy
Your freedom no longer exist

Attacking from the South
Armed Missiles in the North
All their bases covered
Waiting to go fourth
Rows of young men waiting to die for Uncle Sam
While the rich just sit not giving a damn

(Chorus)
Get ready for war boy
Your country needs you now
Get ready for war boy
It doesn't matter how
Your life is theirs now
Don't you run
So get ready and arm your gun
Get ready for war boy
You have no say in this
Get ready for war boy
Your freedom no longer exist
