Oi! is rebel music with backstreet points of view  
Working Class Rock'n'Roll for the likes of me and you  
We hate the boys in blue, we hate the middle class  
Won't take no dead end job, they can shove it up their  
arse

[Chorus 2x:]  
The voice of Oi! [3x]  
That no-one can destroy

We've got to stand united against society  
Got to stick together, side by side, you and me  
Even when we're standing with our backs against the  
wall  
Never show the white flag - Fuck 'em one and all

[Chorus 2x]

[Chorus 2x]
