### "I Must Destroy You"

From the sky I will descend  
Armed force rise from the dead  
Soon they'll attack with the rise of my hand  
Unleash the fury at my command

[Chorus:]  
I must destroy  
I gotta destroy

Unscarred, armed to the teeth  
All your strength is given to me  
Wade through blood in the bottomless pit  
Slip and fall into my grip  
Reaching out but nobody is there  
Follow me to misery and terror  
Tortured soul stabbed in the back  
Left to die alone  
Then I attack
