Who the hell are you  
Not shit to me and I wouldn't mind if I had to hurt you  
I wouldn't care and I'd do it again  
Listen to what I say, do what I say or pay the price  
Or end up like the rest, end up dead, a casualty

Don't try to give me no answers  
Cause I don't wanna hear your mouth

You got me fucked up with someone else, what's your  
problem  
You came to me with the wrong approach, I had to hurt  
you  
You wanna be something that you fucking ain't  
You can try to be someone else, it won't work, it's too  
late
