

Evil Ways "The Long Run"

Visit "[The Long Run](#)" on MotoLyrics.com

Monsters in the darkness
They're following my shadow
While I'm playing with my madness
(They want to take my soul)

Monsters in the darkness
They're runnin' faster than me
And I'm burning in my nightmares
(They want to take my soul)

The long run
My madness is burning my frightened heart
The long run
Your madness is burning your frightened heart

Monsters in the darkness

While blood slippers on me
I see eyes that (are) watching over me
(They want to take my soul)

Monsters in the darkness
They're following my shadow
While I'm playing with my madness
(They want to take my soul)

The long run
My madness is burning my frightened heart
The long run
Your madness is burning your frightened heart
