Lyrics: J. Garcia)

Few care about environment in the U.S.A.

Propaganda controls,

Pollutants in the atmosphere,

Malathion in our air

Mutant race developing,

Hypodermic sewage on shorelines,

Oil spills in the sea

Marine life disappears,

Extermination we contend,

Vanishing life we see

Reality's nightmare,

Environmental litigations,

Hazardous contamination

Lost cause situation,

Power plants pump the waste,

Dump sites overwhelm

Wildlife deteriorating.

Cars polluting / All our air /

Smog fills / Our lungs to hell

Politicians / Don't really care /

End this crisis

They never will.

Rapid pollution of the sea

Sewage falling out of greed

Global warming! Nationwide situation

Harmful waste! Nuclear cultivation

Garbage overflows...

..From land to shining sea

We deserve what we create,

In the Land of the Free

Toxic waste, generations harvest

Carbon dioxide in the air

That we breathe

In the air that we breathe!

Lead: DF

Global warming! Nationwide situation

Harmful waste! Nuclear cultivation

Nitrogen oxide, cancerous affliction

We deserve what we create

In the Land of the Free

Ultra violet / Radiation /
Groundwater / Contamination
Oil refineries / Spew the carbons /
Lung damage
Ozone depletion!
Global warming...
..Making profits all they care
Global warming...
..Clean air act is not enough
