I'm so attuned, when your body moves close  
You are so above me, I'm under  
You're like the moon, Oh your energy glows  
When you're around me, I revolve with you

When we're feeling in sync  
I watch the world go by  
Erase the moon and stars  
If I could have your sky  
Are you feeling me?  
The way I'm feeling you?  
No coming down this high

Lets light it up tonight  
I wanna feel alive  
Lets light it up tonight  
Somebody kill the lights  
We need to do it right  
I wanna feel alive

You're so in tune, let the chemistry flow  
The way you play a melody,  
I never knew how it felt to be us  
We have it easy, let me take you there

When we're feeling in sync  
I watch the world go by  
Erase the moon and stars  
If I could have your sky  
Are you feeling me?  
The way I'm feeling you?  
No coming down this high

Lets light it up tonight  
I wanna feel alive  
Lets light it up tonight  
Somebody kill the lights  
We need to do it right

Lets light it up tonight  
We only get only get one life

If tonight's the night  
I wanna feel alive (I wanna feel your light)  
I wanna feel alive

I wanna feel the light  
I wanna feel your light  
Lets light it up tonight

Lets light it up tonight  
Somebody kill the lights  
We need to do it right

Lets light it up tonight  
We only get only get one life  
If tonight's the night  
I wanna feel alive  
I wanna feel alive
