Listen,
Listen,
Here...
Listen,
Here...
Signs... wake up!
I can't stand myself
Seasons loose their brakes
They're turning upside down
Scream and reach your lasting waves
Nature's bleedin', nature's screaming
Electric waves
You tried to fix it
And now it seems too late
But if you want you still can do it
You really have to do it
Scream and reach your lasting waves
Nature's bleedin', nature's screaming
Electric waves
Dream a future for yourself
And you survive inside this rush
And wonder if you want it
Scream and reach your lasting waves...
To change yourself, to change your life...
And blow out, the new wind...
Scream and reach your lasting waves
Nature's bleedin', nature's screaming
Electric waves
Dream and reach your lasting waves
To change yourself, to change your life
And blow out the new wind
Dream a future for yourself
A future for yourself
A future for yourself...
Dream...
A future for yourself
A future for yourself...
Nature's bleedin', nature's screaming
Electric waves
Dream...
