Baby stay I'll make your dreams come true
Don't look back I do it just for you
Take your chance if you want me tonight
Nothing stops, ohh, my heart, when two hearts collide

Carry me ohh Carrie, don't you break my heart
Ohh, we live for love baby, here we start
Carry me ohh Carrie, ohh, we live for love
I've got what you need, baby in my heart

A love enough for two
Ohh, babe, for me and you
Carry me, Carrie, Carrie take me home

Hear I stand, ohh, babe what did I wrong ?
Try to make that heaven is my home
Love is here babe too good to be true
Nothing stops, ohh, my heart and this heaven too

Carry me ohh Carrie, don't you break my heart
Ohh, we live for love baby, here we start
Carry me ohh Carrie, ohh, we live for love
I've got what you need, baby in my heart

A love enough for two
Ohh, babe, for me and you
Carry me, Carrie, Carrie take me home

Carrie come on feel the need
I'm lost in love lost in you
Carrie darling I'm a fool I'm lost in love, lost in you
Give me what I'm looking for tonight

Carry me ohh Carrie, don't you break my heart
Ohh, we live for love baby, here we start
Carry me ohh Carrie, ohh, we live for love
I've got what you need, baby in my heart

Carry me ohh Carrie, don't you break my heart
Ohh, we live for love baby, here we start
