Gimme energy that's what I feel
Ohh, your blue eyes make it real
Love you in the rain like a crying game

Gimme energy, ohh, can't you see
That your body's next to me
Love you in the rain like a crying game

Anything I wanna do
Anything we'll rendezvous
Ohh, love is good, good to me
Love is like a galaxy

Anything from wrong to right
Anything will turn to light
Ohh, love's good, ohh, good to me
Love is like a fantasy

Gimme energy that's what I feel
Ohh, your blue eyes make it real
Love you in the rain like a crying game

Gimme energy, ohh, can't you see
That your body's next to me
Love you in the rain like a crying game

Ohh, I'll be there in your heart
In the night and in the dark
Like a crying game, like a crying game

Gimme energy that's what I feel
Ohh, your blue eyes make it real
Love you in the rain like a crying game

Gimme energy, ohh, can't you see
That your body's next to me
Love you in the rain like a crying game
