I wanna smile, in your arms you drive me wild
Oh, please smile to me, be my baby
I wanna smile, in your dreams I stay a while
I wanna be your little guy, be my baby

Come on and feel it, I mean it and everytime I've seen
it
I never had the feeling, oh, you hide it and I dream it
I miss it, I kiss it and everytime you bliss it
Babe, I prove your love

Come on and groove it and move it and everytime you
do it
I've never seen you smiling, when you sad and when
you blew it
I mean it, I've seen it and everytime I dream it
Babe, I prove my love

Oh my baby, it's my love you see
Oh my baby, come and smile to me

I wanna smile in your arms you drive me wild
Oh, please smile to me, be my baby
I wanna smile, in your dreams I stay a while
I wanna be your little guy, be my baby

Only with you, love, I'll make it true, love
Only forever we'll stay together

Come on, don't hide it, beside it and everytime you
light it
I always have the motion, oh, I love it and I guide it
I take it, don't fake it and everytime you make it
Baby, prove my love

Come on and say it, I pray it, your smile will gonna
make it
I always have the feeling that your smile will gonna kick
it
I mean it, I've seen it and everytime you dream it
Baby, prove my love

Oh my baby, it's my love you see
Oh my baby, come and smile to me

I wanna smile, in your arms you drive me wild
Oh, please smile to me, be my baby
I wanna smile, in your dreams I stay a while
I wanna be your little guy, be my baby

Only with you, love, I'll make it true, love
Only forever we'll stay together

I wanna smile, in your arms you drive me wild
Oh, please smile to me, be my baby
I wanna smile, in your dreams I stay a while
I wanna be your little guy, be my baby

Only with you, love, I'll make it true, love
Only forever we'll stay together

I wanna smile in your arms you drive me wild
Oh, please smile to me, be my baby
I wanna smile, in your dreams I stay a while
I wanna be your little guy, be my baby

Only with you, love, I'll make it true, love
Only forever we'll stay together
