Oh, when you kiss me, come on feel the fire
Oh, when you miss me, you're my one desire
Do I fall in love? One night is not enough
Did you sleep all night? Oh, I'm not your stupid child

Oh, when you kiss me, flirting with disaster
Oh, when you miss me, hearts beating faster
Do I fall in love? Oh, I need that sweet, sweet stuff
I said, "I'm on, I can make it on my own"

Is she really really going out with him?
Is she really really doing such a sin?
She never ever walking down, touch the town L.A.
It's okay, it's okay

Oh, when you touch me, baby, more than ever
Oh, when you miss me, just like stormy weather
Do I fall in love? Oh, one night is not enough
Did you sleep all night? Oh, I'm not your stupid child

Oh, when you hold me, you're sense to me
Oh, when you touch me, that's reality
Do I fall in love? Oh, I need that sweet, sweet stuff
I said, "I'm on, I can make it on my own"

Is she really really going out with him?
Is she really really doing such a sin?
She never ever walking down, touch the town L.A.
It's okay

Is she really really going out with him?
Is she really really doing such a sin?
She never ever walking down, touch the town L.A.
It's okay
