In room 66 - the devil is playing against me
At the end of the world - there's a place called the hell
On flight number 9 - there's smoke without fire
Oh, we promised ourself - you lost underground
And sail alone
Don't shake - oh baby don't shake hands with lucifer
Take your chance - 'cause baby all dreams will be
crucified
Oh oh - don't play with lucifer
He catch you if you fall
Hear the words from heaven
Don't play with lucifer
Don't you hear him call
Can't you see his raven
In room 66 - he's fighting with humans
A man without face - try to win every race
On highway 62 - there's is the end of a journey
Oh it's self mystery
Babe, without key - set my heart free
